

hello

Platform: [windows](#)

Battery level:

Location: [41.0310](#)

URL [nice](#)

Sample code

```
function init() {  
  //complete the code below  
  plat.innerText = 'xxx';  
  navigator.geolocation  
    .getCurrentPosition(p =>  
      loc.innerText = 'xxx'  
    );  
  navigator.getBattery().then(b =>  
    lev.innerText = 'xxx'  
  );  
  check()  
}  
function check() {  
  //complete the code below  
  fetch(url.value).then(r =>  
    resp.innerText = r.ok? 'OK' : 'xxx'  
  ).catch(e =>  
    resp.innerText = 'err'  
  )  
}
```
